

**Annex II: List of vulnerable cultural sites**

No.	Site Name	NKAH nr. <sup>1</sup>	Description	Access	Visitor rules
1	Offley Ø – Hall's grave, Hall Land	5523 3923 3920 3912 3913	The area possesses several very important Paleo-Inuit and Thule culture Inuit settlements, as well as the memorial for the American expedition (Hall's grave).	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
2	Frigg Fjord, Johannes V. Jensen Land	4412	The Adam C. Knuth Site is the largest Independence I site in Johannes V. Jensen Land. Nearby is a small Greenlandic Dorset Site and two whale skulls.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
3	Kølnæs, Kap Eiler Rasmussen, Peary Land	2042 4893 4894 4896 4897	Site of the 15 <sup>th</sup> century <i>umiaq</i> discovered by E. Knuth. The demarcated area possesses several important Paleo-Inuit and Thule culture Inuit settlements.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
4	Lower Midsommer Lake, Peary Land	4357 4366 4376 4364 4382 5201 5202 5203 5204 5205 5206 5208 5209 5210 5211 5256	The area contains the only known Paleo-Inuit settlement in the interior of Greenland.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
5	Deltaterasserne, Jørgen Brønlund Fjord	5242	A large Paleo-Inuit settlement lying on the	Admission only with NKA-	Only 20 visitors at a time, a few times in a year.

<sup>1</sup> Specific information about the listed site is available at the Greenland National Museum's site registry [Nunniffiit](http://Nunniffiit).

			southern shore of Jørgen Brønlund Fjord.	approved guide.	
6	Kap Harald Moltke, Peary Land	4367 4370 4384 4387 4389 4393 4400 4403 4404 4406 5251 5252 5253	A cluster of Paleo-Inuit and Thule culture Inuit settlements along with the <i>Moltehus</i> research station and airstrip.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
7	Brønlundhus, Kap Knud Rasmussen, Jørgen Brønlund Fjord	4402 5245 4398 5246 4375 4373 5247 4374 4380 4390	Several small and large settlements mostly from the Paleo-Inuit and Thule culture Inuit culture phases. E. Knuth's expedition cabin is also found here.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
8	Kap Holbæk, Danmark Fjord	4342	A large Paleo-Inuit settlement.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
9	Lolland Sø, Danmark Fjord	4343	A Paleo-Inuit settlement is found on the shore of Lolland Sø.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
10	Amdrup Land	378 379 380 381 390 5147 5174 5176 5183 5187 5222 5224	A multicomponent Paleo-Inuit and Thule culture Inuit settlement area. Artefacts are still observed on the ground surface and should not be picked up or moved.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
11	Kap Jurgensen, Amdrup Land	5223	A large Thule culture Inuit settlement is located by the river on	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.

			the southern shore of Kap Jurgensen.		
12	Henrik Krøyer Holme, North East Water	376 5189	The area possesses Thule culture Inuit winter settlements representative of early whaling activity in Northeast Greenland.	Area is closed to the public.	No entry.
13	Eskimonæs, Holm Land	375 384 385 386 5148 5151 5152 5153 5154 5155 5156 5157 5158 5167	Several significant Paleo-Inuit settlements along the coast. Eskimonæs is a large Thule culture Inuit settlement with two whale skulls found on the beach.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
14	Grave of Jørgen Brønlund, Lambert Land	10	Traces of Brønlund's last days might still be found in the area.	Area is closed to the public.	No entry.
15	Sanddal	13 20 23	A few, but very visible and vulnerable Paleo-Inuit settlements.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
16	Kap Sankt Jacques, Île-de-France	2 4	Kap Sankt Jacques is one of the largest and most important Paleo-Inuit sites in the Eastern Arctic. It contains over 400 structures attributed to the Greenland Dorset.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
17	Penthièvre Fjord islands	33 34 35 36	Extensive Paleo-Inuit settlements are found scattered across the two small islands.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
18	Kap Amelie	61	A small but important Paleo-Inuit site with an associated "tower trap"—one of only two	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.

			known from Northeast Greenland.		
19	Germania Land	6	A Paleo-Inuit habitation that includes a unique special winged axial house feature associated with the Greenlandic Dorset. At the top of the island is a cairn built by members of the Danmark Expedition.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
20	Germania Land	122 125 130 131 143 150 151 157 158 165 166 172	Several significant Thule culture Inuit settlements with a high concentration of graves. A few Paleo-Inuit settlements are also found in the area.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
21	Danmarksminde / Danmarkshavn	174	The Villaen station was built by the Danmark-ekspeditionen (1906-08) on the north side of the fjord. The station including the anchor winch and the concrete pillar for the theodolite still remain at the site. Waste and other remains from the expedition are found at the bottom of the bay in front of the station.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
22	Hvalrosodden, Germania Land	60 64 74 117 123 139 140 141 142 152	Extensive Paleo-Inuit and Thule culture Inuit settlement area.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.

23	Pustervig / Dove Bugt	5092	The cabin at <i>Pustervig</i> is gone and only the foundation stones remain. The site is the only location with material left behind by the Danmark Ekspedition (1906).	Area is closed to the public.	No entry.
24	Godfred Hansen Ø/ Dove Bugt	65	An important undisturbed Paleo-Inuit settlement.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
25	Kap Alf Trolle (Store Koldewey)	78 79	Kap Alf Trolle is an important settlement area with Paleo-Inuit and Thule culture Inuit features. The Paleo-Inuit features are hard to discern.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
26	Kap Alabama, Shannon Island	101	A cabin (1910) still stands, built from materials from the <i>Alabama</i> shipwreck. The area around the cabin is littered with artefacts from the ship and leftovers from the year long stay of the two explorers Mikkelsen & Iversen. Lots of old rifle ammunition is scattered in the area. <b>Extremely dangerous:</b> unexploded ordnance and ammunition from WWII is believed to still be in the area.	Area is closed to the public.	No entry.
27	Kap Sussi, Shannon	113	German WWII weather station (c. 1943-44), with one grave. <b>Extremely dangerous:</b> unexploded ordnance (hand grenades) and ammunition from WWII is still believed to be in the area.	Area is closed to the public.	No entry.

28	Kap Philip Broke, Shannon	100 4315	A small Paleo-Inuit site, a large Thule culture Inuit site, and one of the oldest European cabins (Baldwin- Ziegler expedition, 1901) on the Northeast coast.	Admission only with NKA approved guide	Only 20 visitors at a time, a few times in a year.
29	Hvalros Ø	4247	The largest Thule culture site in Greenland (approx. 2000 features: tent-rings, caches. etc.). Additionally, a variety of structures from Paleo-Inuit peoples, European expeditions and trappers.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
30	Grønlanderhuse and Blæsedalen, Wollaston Forland	4238 4932 4933 4934 4935	A large Paleo-Inuit settlement area and scattered Thule culture Inuit remains. The area is extremely fragile due to on-going coastal erosion.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
31	Kap Berghaus, Wollaston Forland	4930 4931	Paleo-Inuit settlement area with evidence of scattered Thule culture Inuit activity. The site lies directly north of a large Walrus population found at Sandø.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
32	Basalt Ø, Young Sound	4939	The only known Thule culture Inuit quarry (except from soapstone quarries). The quarry may have also been exploited by Paleo-Inuit.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
33	Kap Breusing – Dahls Skær, Clavering Ø	1989 4240 4241 4243 4960 4961	Several large Thule culture Inuit sites with some visible tent rings and the only two undisturbed winter houses in the region.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
34	Dødemandsbugten, Clavering Ø	4294	WWII machine gun positions and the Sledge Patrol Station (1943). Additionally, a very large Thule culture	Admission only with an experienced guide.	

			Inuit winter settlement with some Paleo-Inuit remains is found in the area.		
35	Eskimonæs, Clavering Ø	4980 4301	Remains of a cabin burned to the ground during WWII. The hut was the base for Lauge Koch's Three-Year Expedition and the first hut used by The Sledge Patrol. The site is one of the few locations targeted for bombing by Allied troops in Greenland.	Admission only with an experienced guide.	
36	Vega Sund	1976 4141 4142 4143 4144 4145 4150 4151	Vega Sund was and continues to be a very attractive hunting area with several Paleo-Inuit and Thule culture Inuit settlements found in the area.	Admission only with an experienced guide.	
37	Sydkap, Kangertittivaq / Scoresby Sund	775 777 788 789 790 791 792	A small station from the 20 <sup>th</sup> century and many unique Thule culture Inuit settlements.	Admission only with an experienced guide.	
38	Hansa Bugt, Sabine Ø	4249 5105 5106	Location of the secret WWII German weather station. The remains are well preserved.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
39	Bass Rock	4244	Two huts (some of the oldest in NE Greenland) and a boat from the Baldwin-Ziegler Expedition.	Admission only with NKA-approved guide.	Only 20 visitors at a time, a few times in a year.
